

## **Safety Policy Statement**

Health and safety of our people - employees, contractors and visitors - is the number one priority at Sunstate Cement Ltd. We are committed to providing a safe and healthy environment to all.

We believe every injury is preventable. No task, however critical, is worth putting a person's health or safety at risk. Striving for Zero Harm is a daily goal, though that journey is without an end. Each of us is a visible leader in health and safety. We will never walk past an unsafe act or condition without acting. We will report every incident or near-hit, so that we may learn from these. Each of us is responsible for our own health and safety and we will look out for each other.

Sunstate is committed to investing in the training and development of its workforce. We strive to have a culture of continuous improvement and best practice adoption in order to achieve our safety objectives.

Our health and safety management system is accredited to AS/NZS ISO 4801
